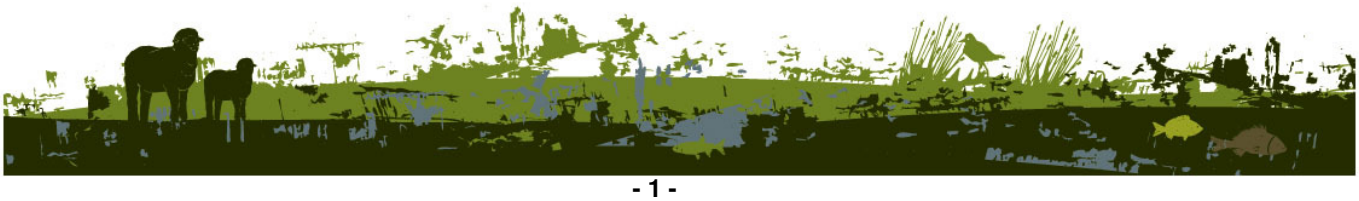
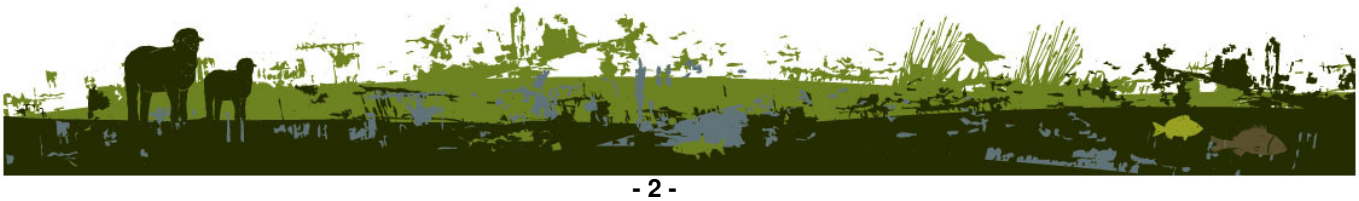
ATTACHMENT TWO - ACTIVITIES LISTS

Activity Number	Activities	Unit of measure	Definitions of Activity
1	Advice/support-group admin assistance	Number (no.)	Amounts granted for insurance, incorporation fees and similar administration costs.
2	Contractor - hire	Hour (hr)	Contractor hire rate including equipment. Record materials separately if supplied by party other than contractor.
3	Earthworks - general	Hectares (ha)	Includes gully battering, gully edging, gully head control, gully side control, tunnel ripping (collapsing tunnel erosion), gully grade control.
4	Equipment - hire	Hour (hr)	Any equipment hired and used to enable project to be undertaken. Could be part of applicant contribution or funded component.
5	Fencing - electric	Metre (m)	Stock proof fence with at least three wires – a minimum of 2 to be live.
6	Fencing - rabbit proof fence	Metre (m)	Permanent fence constructed with rabbit proof wire.
7	Fencing - standard	Metre (m)	Stock proof permanent fence. Add fence description.
8	Fertiliser	Tonne	Quantity of fertiliser used.
9	Gypsum	Tonne	Quantity of gypsum used.
10	Investigations - data collection	Number (no.)	Investigations refer one off surveys: • Establishment of sites or field trials for research and development purposes. • Cultural heritage survey, bird survey project area/site, salinity surveys, stream survey, salinity surveys • Fish survey, macro-invertebrate survey • Ground truthing, mapping
11	Labour (reflects in-kind landholder labour)	Hour (hr)	Landholder/applicants in-kind contribution in hours. Landholder in-kind contribution appears to be guided by fund source: e.g. Landcare Grants - $28/hr
12	Lime	Tonne	Quantity of lime used.
13	Project Management-monitoring & evaluation	Number (no.)	Monitoring and evaluation includes site monitoring against a known baseline, establishment of benchmarking data or project/ program evaluation activities. E.g. 1000 tubestock plantings on 1/7/12 and on 1/1/13 500 tubestock plantings are alive (~50% survival).
14	Pest animal control	Hour (hr)	All activities focused on controlling pest animals (fox, rabbit) by removal of harbour and warren destruction.
15	Pest plant control – chemical reimbursement	Volume (L)	Volume of diluted chemical used to be reimbursed to landholder at a rate outlined in landholder agreement e.g. spot sprays.





Activity Number	Activities	Unit of measure	Definitions of Activity
16	Pest plant control - weed removal	Hour (hr)	Any weed removal - weed control, mechanical and chemical.
17	Plan development - select as appropriate	Number (no.)	Includes development of stream flow management plan, restoration plan, waterway action plan, overall group/regional plans. Record as number of plans. Includes EBMP projects.
18	Project Management	Number (no.)	Project management is the activity used to record: salary, all capacity building and educational activities, field days, workshops
19	Structure - erect signage	No.(each)	Number of signs erected.
20	Structure - fishway	No.(each)	Number of fishways constructed. Predominantly used by River Health operations.
21	Structure - pile field	No.(each)	Number of pile fields constructed. Predominantly used by River Health operations.
22	Vegetation - covenant established	Number (no.)	For example, Trust for Nature covenants or EcoTender
23	Vegetation - farm forestry	Hectare (ha)	Includes plantations, agroforestry and EcoTender.
24	Vegetation - planting perennial grass pasture	Number (ha)	Area in hectares of vegetation planted to perennial pasture in salt affected areas. Species and quantities of species to be attached.
25	Vegetation - purchase cell grown seedlings	Number (no.)	Hykos and lanons (not tube stock). Species lists with quantities to be attached.
26	Vegetation - purchase seed	Kilogram (kg)	Cost of local native seed mix per kg to be direct seeded. Species list with quantities to be attached.
27	Vegetation - purchase tree guards	Number (no.)	Includes stakes
28	Vegetation - purchase tubestock	Number (no.)	Appropriate mix of tubestock species. Species and quantities of species to be attached.
29	Vegetation – site preparation chemicals	Litre (L) or Hectares (ha)	This includes litres of chemicals applied either through a knap sack or as a spot spray. This should also take into account number of spot sprays.
30	Waterways – purchase crossing materials	No. (each)	Number of waterway stock crossings constructed
31	Waterways – purchase off stream watering components	No. (each)	Number of off-stream watering points established (1=all components for one watering point)
32	Waterways – re-snagging/habitat enhancement	Length (m)	Length of stream re-snagged/enhanced
33	Waterways – Supply/place rock	Tonne	Quantity of rock associated with purchase and placing rock for stream works.
34	Waterways – willow management major	Length (m)	Mechanical removal
35	Waterways – willow management minor	Length (m)	Includes stem injection and spraying (non mechanical).
36	Wetlands/lakes - wetland regulator	Number (no.)	Man made regulator erected at a wetland.
